

Equity Crowdfunding For Inventors

13 Sources Of Capital For Invention Commercialisation

If you're an inventor who is serious about wanting to scale up invention, then this equity crowdfunding source holds the keys you need.

The Moral Here Is: Gain Capital For The Scale Up Of Your Invention

The core idea for inventors with this equity crowdfunding source is that:

- Capital can be crowdfunded in exchange for company equity
- Fund your invention manufacturing process
- Fund your invention initial inventory
- Fund your sales and marketing launch.

So, here's what this really means:

- Turn your invention to commercial success
- Advance your entrepreneur growth journey
- Deliver customer value at scale.

This equity crowdfunding source will help inventors because:

- Allows you to profit from inventions
- Scale up business quicker
- Create global impact.

Next steps for you is to:

Check you have a private company under \$25 million in assets and revenue with at least 2 directors.

Organise with us an Australian equity crowdfunding launch using one of these 13 organisations.
